

## Band bio URZA

Status: 08.09.2019

The band URZA was founded in May 2015 by Hannes, Olli and Marc with the aim of playing Doom Metal the extreme way. So we describe our style as Funeral Death Doom.

In the following months the band has grown up to a five-piece with the addition of Thom and Marcus.

The current band line-up looks like:

Hannes : Drums

Olli : Guitar

Marcus : Guitar

Marc : Bass

Thom : Vocals

From May 2015 to January 2018 we were working assiduously on the composition of the songs for our first album „The Omnipresence of Loss“. In total we created 6 songs which from 5 found their way onto the album.

End of January we began with the recordings of the album. In June the mixing and mastering process has begun and is completed now. The album was released March 15, 2019 by Solitude Productions.

In September 2016 we successfully completed our very first live appearance at the Swamp Fest in Berlin.

Since then we participated at such events as the „Dutch Doom Days“ in the Netherlands, the „Haunting The Castle“ in Belgium or as support for „Age of Woe“ and AHAB and some more gigs in Germany.

For 2019 and 2020 more single gigs and a mini tour with Treurwilg are already fixed.

Currently we are working hard composing new songs for a second album. One first 15 min song „To Drown In Madness And The Sea“ is already finished. In August 2019 we finished the 2nd new song „In The Aftermath Of Dystopia“ clocking at around 20 min!
